EDUCATION

Dy Patil School of Engineering & Technology, Pune, India

2022 - 2026

B. TECH in IT Engineering

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript

Frameworks & Libraries: React.js, Next.js, Tailwind, Express.js, Node.js

Cloud & Databases: MongoDB

Developer Tools: Git /GitHub

WORK EXPERIENCE

Full-Stack Developer Intern - Innovative Staffing

[Link](#)

(June 2025 – September 2025)

- Development of high-performance web application using React.js Node.js Express.js and MongoDB scalable solutions that boosted client engagement by 20%.
- Developed and Optimized Server-Side functionality with node.js and express.js integrating Webhooks and Payment APIs.
- Diagnosed and resolved critical website bugs, improving web performance by 20-25% and ensuring seamless functionality across responsive interfaces.

PROJECTS

Earn Karo – Complete Task and Earn Platform

[Link](#)

Tech Stack: Node.js, Express.js, React.js, MongoDB, JWT authentication, Razor Pay API integration, Webhooks.

- Built a full-stack platform where users earn rewards by completing tasks like app installs and quizzes.
- **Webhooks** Used for **Realtime tracking** of install and signups.
- Designed a responsive frontend using React.js and Tailwind CSS for smooth UX.
- Developed secure **RESTful APIs** for user, task, and admin operations.
- Implemented JWT-based authentication with role-based access control.
- Created an **admin dashboard** for managing task status, payouts, and rewards.
- Deployed frontend on Vercel , backend on Render , and used MongoDB Atlas.

SkillBridge – Bridging the Gap Between Talent and Opportunity

[Link](#)

Tech Stack: Node.js, Express.js, React.js, MongoDB, Socket.IO, JWT authentication, Tailwind CSS

- Built a full-stack freelance marketplace connecting clients and freelancers with secure, role-based authentication for Clients, Freelancers, and Admins.
- Implemented project posting, bidding system, and a dedicated project workspace with **real-time chat** using **Socket.IO**. Database management utilized MongoDB to efficiently manage product information and user data.
- Designed a complete project lifecycle workflow (Open → Active → Pending Approval → Completed) with approval/rejection flows..
- Developed an **admin dashboard** to oversee users, projects, and applications.
- Created a **modern, fully responsive UI** with Tailwind CSS, dark mode, and smooth transitions for enhanced user experience

CERTIFICATIONS

Frontend Developer by HACKERRANK

[Link](#)

- Gained hands-on experience in state management of API integration and performance optimization.
